Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Tuesday 12 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cloudy and damp in west, clearer later in east.

This Evening and Tonight:
Generally cloudy with some outbreaks of light rain or drizzle through the evening, especially on higher ground in the west. Becoming largely dry for all through the early hours, with some cloud breaks developing in the east. Minimum temperature 7 deg C (45 deg F).

Wednesday:
Mostly dry and bright in the east with sunny intervals. Cloudier conditions in the west, with showery outbreaks of rain possible. Becoming breezy in the north and on hills. Maximum temperature 16 deg C (61 deg F).

Outlook for Thursday to Saturday:
Cloudy and windy Thursday with drizzle on high ground, but brighter in east. Rain overnight. Friday brighter but colder. Winds easing. Saturday cool and cloudy, rain possible later.
